

26 February 2024

- **PRESS RELEASE** -

**CACLP & CISCE to present the latest in IVD with
1300+ Exhibitors and 100+ Concurrent Activities
this March in Chongqing**

Chongqing, China – The 21st edition of the China Association of Clinical Laboratory Practice Expo (CACLP) and the 4th edition of China IVD Supply Chain Expo (CISCE), set to take place **16-18 March** at the **Chongqing International Expo Center**, are pleased to announce that the event has over 1,300 exhibitors from 19 countries and regions showcasing their latest offerings, alongside a multitude of concurrent activities and enriching experiences awaiting visitors worldwide.

Gathering the main global leaders of the in vitro diagnostics (IVD) industry, CACLP & CISCE 2024 aim to establish quality networking and facilitate meaningful connections that drive innovation forward to truly realize ***Shaping A Smarter Future Through Collaboration***.

• **Full Schedule Released**

The full schedule of the Convergence of Laboratory Medicine & In Vitro Diagnostics, including the two tradeshows CACLP & CISCE and over 100 concurrent activities, has been officially released.

The 4 days' agenda is designed to cater to diverse interests and professional needs. Navigate through the schedule below to chart your course at this amazing event.

2024

THE CONVERGENCE OF LABORATORY MEDICINE & IN VITRO DIAGNOSTICS

15 MARCH

- 08:30 - 18:30  **CEMC The 9th China Experimental Medicine Conference**
(Chongqing Yuelai International Convention Center - Liangjiang Grand Ballroom A)
- 08:30 - 12:10  **CIDEF The 6th China IVD Distribution Enterprise Forum**
(Chongqing Yuelai International Convention Center - Fiesta Function Room A)
- 13:30 - 18:10  **CKRMPF The 4th China Key Raw Material & Parts Forum**
(Chongqing Yuelai International Convention Center - Fiesta Function Room B)
- 13:30 - 18:00  **ELM-Y Enlightening Lab Med - The 7th IVD Youth Entrepreneur Forum**
(Chongqing Yuelai International Convention Center - Fiesta Function Room A)

16 MARCH

- 09:00 - 09:45 (Opening Ceremony) 08:30 - 17:00 (Opening Time)  **CACLP · CISCE The 21st China Association of Clinical Laboratory Practice Expo
The 4th China IVD Supply Chain Expo**
(Chongqing International Expo Center)
- 09:30 - 18:00  **CEMC Series Sessions**
(Chongqing Yuelai International Convention Center)
 - Artificial Intelligence in Medical Innovation
 - Advancements in the Utilization of Diagnostic Techniques in Infectious Disease Laboratories
 - Achievements of Artificial Intelligence in Laboratory Clinical
 - Clinical Blood Transfusion and Coagulation Tests
 - Clinical Pharmacy Series Forum / Precision Drug Therapy Jingshi Forum
 - Clinical Trials Promote the Clinical Application of Novel Immunohistochemical Candidate Biomarkers
 - Experimental Medicine Interdisciplinarity Innovation
 - Laboratory Standardization and Intelligent Construction Facilitating High-Quality Discipline Development
 - Standardization and Innovative Applications of Clinical Mass Spectrometry Techniques
 - Thrombosis and Haemostasis
 - Tumor Marker Testing and Clinical Application
- 10:00 - 18:00 **Business Forums & Meetings**
- 13:30 - 18:00  **CIIDC The 11th China IVD Industry Development Conference**
(Chongqing Yuelai International Convention Center - Liangjiang Grand Ballroom A)

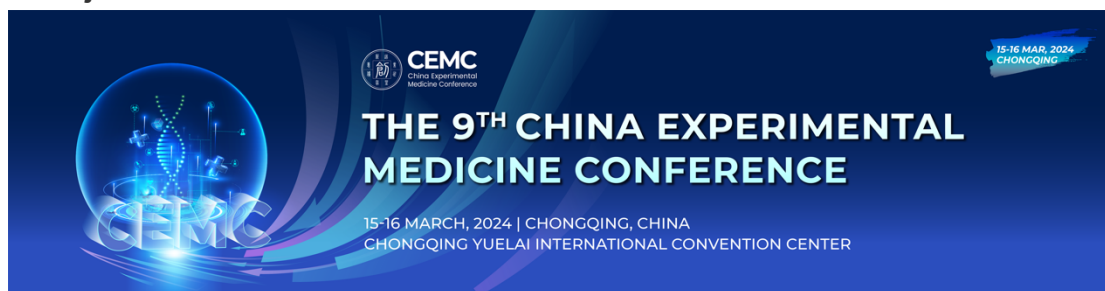

17 MARCH

- 08:30 - 12:00  **CIIDC The 11th China IVD Industry Development Conference**
(Chongqing Yuelai International Convention Center - Liangjiang Grand Ballroom A)
- 08:30 - 17:00  **CACLP · CISCE The 21st China Association of Clinical Laboratory Practice Expo
The 4th China IVD Supply Chain Expo**
(Chongqing International Expo Center)
- 13:30 - 16:30 **IFCC International Laboratory Medicine & IVD Forum**
(Chongqing Yuelai International Convention Center - Apollo VIP Room)
- 13:30 - 17:00 **Business Forums & Meetings**

18 MARCH

- 08:30 - 14:00  **CACLP · CISCE The 21st China Association of Clinical Laboratory Practice Expo
The 4th China IVD Supply Chain Expo**
(Chongqing International Expo Center)

- Major Academic Sessions

On 15 March 2024, [The 9th China Experimental Medicine Conference \(CEMC\)](#) will invite Chinese and international academicians, as well as over a hundred renowned experts and scholars in experimental medicine, biomedical engineering and other fields to give exciting forward-looking speeches on topics such as advanced hospital management experience, experimental medicine management experience, innovative medical models, and how to further promote the process of hospital management in China and the implementation of the Healthy China strategy and the future hospitals management ideas.

Over 10 series sessions will be held 16 March, covering intelligent medicine, mass spectrometry, pathology, regulation, clinical laboratory, blood transfusion, clinical pharmacy, laboratory management and other topics in the field of experimental medicine.

[The 11th China IVD Industry Development Conference \(CIIDC\)](#) has rich and informative content as a significant annual event for the entire IVD industry chain. This year, the conference will focus on new trends and new developments in the industry, inviting renowned experts, scholars, and entrepreneurs to discuss how to effectively build a healthy industry ecosystem, promote the benign development, and address the opportunities and challenges brought by various policy factors in the current situation.

The conference will cover IVD health economics, innovation, reform of medicine and healthcare system, centralized procurement, market status, international operational capabilities, investment and financing, strategic restructuring, enterprise incentive mechanisms, and cutting-edge technologies, providing comprehensive, multi-dimensional, and in-depth insights.

The 6th China IVD Distribution Enterprise Forum (CIDEF) will host esteemed experts, executives from listed companies, and leaders from third-party service organizations, fostering profound exchanges on the service ethos, quality control, and developmental experiences of IVD distribution enterprises.

Enlightening Lab Med - The 7th IVD Youth Entrepreneur Forum (ELM·Y) will invite executives from well-known listed IVD companies, industry experts, senior investment banking partners and other industry experts together to build a communication platform for young entrepreneurial groups, help young entrepreneurs to strengthen industrial innovation and enhance their comprehensive capabilities.

The 4th China Key Raw Material & Parts Forum (CKRMPF) will invite association leaders, global IVD key raw materials and parts industry leaders, authoritative experts and senior investors in the biological industry to exchange industry topics and talk about the future plan.

• International Engagement Highlights

Further indicating the international presence of this year's show, a series of international engagements integrated:

- International representatives from 18 countries and regions including **Canada, Germany, India, Italy, Japan, Korea, Norway, Singapore, Spain, Sweden, Switzerland, the USA and other countries and regions** have confirmed their presence as notable exhibitors and academic contributors.
- Furthermore, the international exhibitors will present their latest developments and new products during Engaging roadshows will take place on 16 March 10AM - 5PM and on 17 March 9 AM - 5PM in the Hall N3 International Pavilion of Chongqing International Expo Center, facilitating global networking opportunities.
- **CEMC and its Series Sessions, CIIDC and its Series Forums, and IFCC International Laboratory Medicine & IVD Forum**, hosted at the Chongqing Yuelai International Convention Center, will first time after the covid welcome a big delegation of international scientists joining in to share the most developed technology, deliver informative and insightful reports to the local industry and community.

Following the lead of France, Germany, Italy, the Netherlands, Spain, and Malaysia, passport holders from Singapore and Thailand can now travel to China without applying for a visa. It is expected that more international participants will be engaged in this year's event, fostering greater collaboration and exchange of ideas within the global healthcare community.

• Your Best Expo Companion: CACLP APP

This year's event offers more varied content and activities on display than ever before. Explore them all with the comprehensive features of the CACLP APP.

Navigate effortlessly through schedules, floor plans, lists of exhibitors and products, bookmark favorite sessions, and engage in networking opportunities - all at your fingertips with the user-friendly expo application!

BRINGING IVD PEOPLE TOGETHER

Download the CACLP App now for a curated and efficient exhibition experience. Stay informed, connected, and make the most of your visit to CACLP & CISCE 2024.

The banner features a smartphone displaying the CACLP app interface, the CACLP logo, and download instructions for the App Store and Google Play.

中国国际检验医学暨输血仪器试剂博览会
China Association of Clinical Laboratory Practice Expo

As always, CACLP & CISCE 2024 welcome industry professionals from all over the world. IVD players anticipating an experience filled with innovative exhibits, groundbreaking research presentations, insightful discussions, and networking opportunities are encouraged to be a part of this event. Join us to gain access to new content and find inspiration that drives IVD progress.

About GL events

GL events is a world-class leading provider of integrated solutions and services for events operating across the 3 major core divisions: Venues (venue management), Exhibitions (exhibition organizing) and Live (event services).

Through its wide global network made up of more than 90 offices, with organizing over 480 proprietary trade fair and events, managing more than 60 venues, and staging more than 4,200 events every year, GL events Group is a critical force for city promotion of 28 MICE destinations.

Present on five continents with operations in more than 20 countries, GL events has over 5,119 employees. Listed on the Eurolist Euronext Compartment B (Paris Stock Exchange), GL events had a turnover of €1.315bn in 2022.

About CACLP

Debut launched in 1991, CACLP, the China Association of Clinical Laboratory Practice Expo, is well established as one of the largest exhibitions in the in vitro diagnostic industry worldwide. CISCE, China IVD Supply Chain Expo, successfully launched in 2021, further expands the product sectors from upstream to downstream. With a great number of high-level academic and educational programs held concurrently onsite, and year-round promotional solutions, CACLP proves itself as one of the most important platforms for global IVD players.

In 2020, CACLP formed the joint-venture company with GL events to start the internationalism strategy.
